E-mail: kfisher@agrisafe.org

The practicum will vary based upon student's interest.

Possible projects may include but are not limited to:

1. Assess degree to which PPE education is integrated in rural care settings
2. Develop a personal protective equipment decision guide
3. Assess barriers to accessing health care among Ag Producers
4. Assess risk factors associated with specific farming practices
5. Enhance AgriSafe health promotion website with resources for health professionals and farmers
6. Design a brochure to attract farmers to the AgriSafe services
7. Write and help direct a video which highlights the AgriSafe services
8. Revise and update clinical health screening forms
9. On-site practicum experiences at one of the AgriSafe sites which could include:
 - Development and implementation of a marketing campaign
 - Facilitation of an advisory council and eventual strategic planning
 - Securing partnerships with local businesses
 - Evaluation of programs
 - Development of specific health education materials
