

# NOW HIRING!

## PENNSYLVANIA TOTAL FARMER HEALTH<sup>®</sup> COACH

Are you passionate about improving the overall health of Pennsylvania farmers?

Join the AgriSafe team as a health coach certified to educate Pennsylvania farmers on Total Farmer Health.

**Training Program:** You bring the passion and AgriSafe will provide the tools and training to prepare you as a Total Farmer Health (TFH) coach.

Your training investment is free and includes:

- 20 credit hours of self-study in the field of agricultural occupational health and safety
- Access to AgriSafe's extensive resource library
- AgriSafe team support to ensure training success

**Minimum Coach Qualifications:** Public health or clinical background as a licensed health care professional in Connecticut including mental health providers, nurses, APRN's or others with a background in mental health with a passion to serve agricultural communities.

Because your initial training is 100% online, you can complete the Total Farmer Health Coach Certification wherever you feel most comfortable and whenever it best fits into your schedule.

For more information scan the QR code to watch a 30-minute presentation discussing the role, responsibilities, and expectations of a Total Farmer Health Coach.
